Does this affect my current Indian Health Service benefits?

No. You will always first and foremost be a beneficiary of Indian Health Service, Tribal hospitals and health clinics throughout Alaska and the United States. Tribally-sponsored health insurance is an added health care benefit. You should always use your Tribal health clinics and hospitals to ensure that your health care needs are being met and that you are as healthy as possible.

Do I still need to get referrals for care from my Tribal health organization?

Yes. You will still need to get a referral for care outside of the Indian Health Service system. Without the referral you may be billed for part of the service you get.

Will Tribally-Sponsored Health Insurance cover my family members?

Yes, your family members are eligible for Tribally-Sponsored Health Insurance if they are eligible for Indian Health Service services; meet the income guidelines in the chart above; and are not covered by or eligible for Medicaid (Denali Care), Denali KidCare, Medicare Part A, TRICARE, CHAMPVA, or affordable health insurance through an employer.

If you are required to, you must file tax returns on time and, if married, file jointly.
